

Three service lines. One standard.

We take executive teams from diagnosis to implementation in applied AI, cloud infrastructure, and digital growth — with measur

 AI Agents

 Direct to Cloud

 Growth

AI Agents

Operational agents that plug into an existing process and deliver results in weeks. Scoped deployment, immediate impact.

Direct to Cloud

Structured migration to AWS, Azure, or GCP with FinOps from day one. Orderly exit from the legacy datacenter without pausing operations.

Growth

B2B demand generation with clean tracking and honest attribution. From click to signed contract with an auditable pipeline.

01

AI Agents

Scoped pieces that unblock processes in days, not months.

Entry: Education → Appetite

CEO / COO · CIO / IT Dir.

Deploy: 2-6 weeks

CASE

Axelera — Client qualification agents for a factoring firm

Land & expand: 1 agent → 4+ in 12 months

02

Direct to Cloud

Exit the datacenter without pausing what already bills.

Entry: Infra pain → Urgency

CFO / CEO · CIO / Infra Dir.

Quick wins: wk 2 · Full: 6-9mo

CASE

Altech — From idea to cloud banking core
Costco/KIO — Exit AS400 + IBM

Managed services + recurring FinOps

03

Growth

From click to signed contract, with defensible attribution.

Entry: Broken pipeline → Traction

CEO / Owner · CMO / Mktg Dir.

First results: 8-12 weeks

CASE

Grounded by Ana — Shopify from zero to \$23K USD/mo in 30 days

Growing retainer + cross-sell to AI & Cloud

Value comes from depth per account, not the number of clients.

AI Agents

Year 1 · 1 agent

\$0.8 — 1.5M

Year 2+ · 3-4 agents

\$1.5 — 3.6M

Build \$300-500K + Run \$40-80K/mo
Expansion per agent \$250-400K

Direct to Cloud

Year 1 · Migration

\$1.4 — 4.2M

Year 2+ · Managed

\$1.5 — 3.2M

P1 Landing zone \$300-800K
P2 Core workloads \$700K-2.2M
Managed \$100-200K/mo

Growth

Year 1

\$0.8 — 2M

Year 2+ · Retainer

\$0.9 — 2.2M

Setup \$100-200K
Retainer \$60-150K/mo
+20% annual on results

Full-stack account · Year 2+

\$3.9 — 9M MXN / year

5-10 accounts buying 2+ lines = \$40M MXN target
